**** External Email ****

Looks like we'll be good with PFAS being in SCDM for Blades.

Subject: PFAS being added to SCDM

Hi Lorie. I wanted to give you the early heads up that we are going forward with the SCDM update early next week. For Blades, instead of using the memo (Ref 3) in the doc record I think that all references to using PFAS in the record are referenced to Ref 2 (SCDM). Also, this means that your private wells are Level 2 wells since they are below the benchmark (400 ppt)

I wanted to get you and your contractor working on this ASAP for September. Thanks!
